

2022 World Cup Projection Set Extras • SOCCER BLAST Pro Soccer Game

Welcome to World Cup Mania! Every four years, the world is captivated by “The Beautiful Game,” with a championship tournament of truly global proportions filled with drama, excitement and surprise. No matter one’s interest level in the sport, it seems everyone’s a football fan when the World Cup is going on. This “pre-PLAAY” projection set follows the lead of our 2014 and 2018 sets, with the player ratings put together by Canadian soccer fanatic John Bergeron.

In addition to rating the players, John created two special add-ons for the set, included here. There’s a set of referee cards, based on the actual referees for the 2022 event, and a supplemental penalty kick chart. These are optional features designed to enhance game play--feel free to use any, all or none of them, as desired. John adds, “These referee cards and supplementary charts are also very adaptable to other Soccer Blast sets, so feel free to use them as you see fit. Hope you enjoy them!”

Here are John’s design notes for each of these “extras.”

Referee Cards

For the first time ever, referee cards are available for use with your game! These cards were designed to give referees a bit of personality and are meant to work co-operatively with the current Referee Decision Charts when a main chart roll of five (5) is achieved.

All 36 officially named match referees for the 2022 World Cup are included in the set and each has been rated individually to mimic their real-life tendencies, whether it is to be strict, neutral, or lenient. No two referees are alike, and each will show some personality whether it be to call more (or fewer) fouls, offsides, corner kicks, yellow/red cards, and penalties. Most of the referees are balanced, with a slight bias in favour of the designated home team. You may even find a couple of refs with a stronger bias towards the designated home team too.

Here’s how to use the referee cards: Anytime a Pitch Action Chart roll results in a referee decision (roll of 5), merely refer to the referee card, identify which team currently has possession of the ball (home or away*), roll two dice, add them up, and cross-reference with the referee card. In most cases, it will direct you to a specific result on the referee decision chart (either M or K).

Due to space limitations on the referee card, short form directions are used, but are very easy to figure out (i.e. A result that is listed as (K) HR 8 means that the result will be read on the K Chart (K), Hostile Referee HR, dice roll 8).

Okay, so now you’re asking, “Why is the referee calling a play on the Referee Decision K Chart, when the play was rolled on the Pitch Action Chart?” This is where the variability of the referees comes into play. You’ll need to keep an open mind that each of the Referee Decision Charts (M or K) are abstracted and are not reliant on whether M or K are required. Think open-mindedly and trust the referee cards. NOTE that the referee cards designate ‘home’ and ‘away’, however you can choose which team gets each designation, either via decider die, or intuition, or any other method you fancy. Note that the designated home side will typically have a slightly more favourable rating than the away team.)

IMPORTANT: The following was observed during the play-testing phase. If you ARE using the referee cards, and you roll on the Highlights Chart, some of the results will indicate that the referee has a friendly/neutral/hostile bias. Disregard the bias altogether as it will not affect the rulings listed on the Referee cards. (i.e. “Highlight Reel M [roll 4] – Visiting player called for foul, argues with referee. Ref is now FRIENDLY to home team offence”. In this scenario, when using the referee cards, merely assign the foul to the visiting player and continue to the next minute roll. Completely disregard the ‘friendly’ bias.)

Other results on the referee card include OFFSIDES, in which the opposition merely takes over possession in a new minute roll, RED? VAR in which a potential red card offense has occurred pending video review, and PEN? VAR in which a potential penalty kick may be awarded pending video review. When the latter two options are rolled on the Referee Card, it will require you to refer to the VAR** chart (**Video Assistant Referee). Simply follow the directions on the respective VAR charts until the play is resolved.

A third chart appears on VAR page and it refers to goals requiring video review. This third chart should be used whenever you roll a Green 6 (i.e the pointing finger) on goals – which would have ruled them out automatically under the standard Soccer Blast rules. The VAR option gives your teams/players a chance for the goal to count or to be wiped out entirely due to an infraction against the offensive team.

Supplemental Charts for Penalty Kicks

This optional Alternate Penalty Kick chart that is a little more detailed than the standard one. This can be used in all penalty kick situations, either in the middle of a match or in the knockout rounds to determine the winner. As simple as it looks, the results are based on a review of 2,500+ penalty kicks taken from the last five seasons in Europe’s five biggest leagues, thus yielding favourable, realistic results.
