

# Association of Canadian Colleges & Universities

## 2024 Season

The ACCU is a fictional collegiate league created for Cold Snap. Consisting of twenty-eight fictional colleges and universities across Canada, the ACCU is broken down into four conferences: Western Canadian Conference (WCC), Central Canadian (Ontario) Conference (CCOC), Universités et Collèges du Québec (UCQ), and North Atlantic Coast Conference (NACC). Top players within the ACCU are often drafted into the Interprovincial Pro Football Conference (IPFC), a fictional professional Canadian football league.

Each team within the ACCU plays at least twelve regular season games, mostly within their own conference. At the end of the regular season, the two top teams in each conference play in a conference championship game. The four conference champions are then ranked one through four and enter into the ACCU semifinals; the number one ranked team plays the number four ranked team, the number two ranked team plays the number three ranked team. The winners of the ACCU semifinal games play in the ACCU championship game.

*Update for 2024.* Quarterback Ratings impact their team's offensive preference. Located to the far right of each second and third string quarterback is a number in brackets. This is the offensive preference the team will use when that quarterback enters the game. If there are no brackets, the offensive preference found at the bottom of the team card is used.

# Association of Canadian Colleges & Universities 2024 Season Instant Result Chart

Each ACCU team has a Power Rating (PR) from A to F. To use the Instant Result Chart, locate the Power Rating for opposing teams, roll 2d6 using the 11-66 method, and refer to chart. If the roll result is within the chart's range, the home team wins. If outside the range, the away team wins.
