

Roller Derby Legends Suggested Rosters

Skater's card number indicated in [brackets]. Actual roller derby rosters varied, some players skated for several teams during the season, as needed. The San Francisco bay area was always home to the Bombers, other franchises were associated with various cities or regions.

Dividing the players into six teams will dilute the talent. (This is something the real derby discovered!) A stronger league can be arranged by eliminating the Eagles or Jolters and distributing their players among the remaining five teams.
